

This information document provides a general overview of motor insurance and Liiklus+ additional cover. ### What is this type of insurance?

Liiklus+ includes motor insurance and, to an agreed extent, voluntary insurance for passenger cars or light trucks.

Motor insurance insures the liability of the possessor of the insured vehicle for damage caused to a third party with the vehicle. In other words, the insurer indemnifies the damage inflicted on the victim with the vehicle instead of the person who caused the damage. Motor insurance covers liability for damage caused by the use of a vehicle as a means of transport. The terms and conditions of the contract are largely governed by the Motor Insurance Act.

Liiklus+ additional cover insures a passenger car or light truck. The insurer indemnifies damage to or destruction of a vehicle as a result of a sudden and unexpected event specified in the terms and conditions.

## What are my obligations?

- The policyholder's main obligation is to pay the insurance premium
- The insurer must be notified of risk situations and changes thereto, incl. changes to the use of the vehicle
- The policyholder must follow traffic rules and behave reasonably and
- immediately notify the insurer of traffic accidents and follow their instructions.
- The vehicle that was damaged in the traffic accident and other property must be kept in the state they were after the incident until the insurer provides further instructions
- The insurer must be immediately notified of any changes in the ownership of the vehicle or user responsible thereof

## When and how do I pay?

The insurance premium and payment deadline are specified in the policy. The premium is usually paid by bank transfer at the time of signing the contract or on the basis of an invoice.

If the contract becomes effective after the payment of the premium, the payment deadline is specified in the proposal.

## When does the cover start and end?

The insurance cover starts and the insurance contract becomes effective on the commencement date of the insurance period. The insurance cover ends upon the expiry of the insurance period.

It may also end before the expiry of the insurance period specified in the contract. For instance, the insurer may terminate the contract if the insurance premium is left unpaid. The insurance contract ends automatically if the vehicle is removed from the traffic register.

Automatically renewed contracts are renewed for the next insurance period unless you express your objection within two business days of the end of the insurance period or enter into a contract with another insurance company.

## How do I cancel the contract?

In order to terminate the contract, you must submit a respective request to the insurer.

In general, the contract can only be terminated prematurely upon mutual agreement between the policyholder and the insurer. The insurer cannot generally be required to terminate the contract.
